From The Desk of Karla Silver:

Dear Friend,

I was accustomed to a 6-figure income, but it came with a great sacrifice of my time and a tremendous amount of stress. I was told all my life that working in Corporate America was the way to be successful, but then the Corporate World itself forced some career changes upon me.

As often happens in the corporate America, you can work your way up, make great money, make incredible sacrifices and feel that you have attained some security, only to have circumstances or burnout push you out. I finally had to take two years off - just to recover!

When I decided to re-enter the workforce, my skin actually crawled with anxiety at every interview ... the idea of going back to a 50-80 work week was already stressing me out ... just the IDEA!

Both of us recognized that we had to turn our individual obstacles into a huge opportunity. We said "NO" to starting over from the bottom, submitting to long hours and basically having the corporate world own us. We were then able to say "YES!" to all the things we truly wanted our lives to be. When we refused to start over again within the corporate world, it started us on a path that has led us to ultimate freedom and happiness.

We were always looking for opportunities, and a main objective was to be in business for ourselves while helping others. Personal growth & financial independence became our priorities!

We opened up our vision and found an incredible business. A business that allows us to generate the income we want, while controlling our own time, from anywhere in the world.

We work together now, planning our days as we choose. Best of all, we're able to travel all over the world without worrying about anything!

The bottom line is that we're in control now. We're in control of how much we make and in control of how we spend our time. The fact that we can now offer that to others is incredibly gratifying.

We never thought we could find something that would combine our love of personal growth and helping others with the ability to have our own business and earn a substantial income. We spent many years searching and trying different businesses on the side. Nothing worked. We did some deep soul searching. We realized that we were trying to be the "Lone Ranger" and do it all by ourself. We then started to educate ourselves on what it takes to be wealthy and successful. We studied how wealthy and successful people lived. We discovered some key elements – having a supportive community, having a mentor, solving problems for people and adding value, a good marketing plan, systemizing your business, etc.

What we discovered is that this business is the opportunity that we had been searching for all these years. We have become part of a wonderful community of like-minded people that are deliberate creators of their lives. We have learned how to take ownership of our lives and our business. We have discovered the secrets to personal growth, the good that comes from creating value for others, the happiness of pursuing and achieving worthy goals. We have much gratitude

Real People... Real Stories

A World Wide Success Story

Here are a few people who have taken their independence seriously.
They now experience the **FREEDOM** and **FULFILLMENT** of controlling their own destiny.
Listen to them:

Suzanne & Roger

We are both from England, Roger is a qualified accountant who specialized in taking companies public and running them as the CEO. Suzanne is a nutritional counselor and color therapist. We both ran successful businesses of our own both here and in England. We came to California 25 years ago, and decided after many years to "take it easy" and took a job selling high- end massage chairs at medical shows and conventions all over the USA. Not only did this give us the chance of visiting over 40 States but also we were able to earn a multiple six - figure income between us. However we went to England in February 2007 and returned to find that the company had closed its doors. So much for working for someone else! We realized that we wanted our own business again and after two days, we were lucky enough to come across this opportunity.. We now know that this was meant to be and that the company we were working for had done us a huge favor by going out of business .We were amazed by the money that was on the table and by the tremendous support and training that we received. Now we get to travel when and where WE want and are on our way to replacing our multiple six figure income by working 4 hours a day 4 days a week with the goal of making a seven figure income by December 2008. We are founding members of the leadership group expanding into Europe and the UK and now spend much of our time in Spain. - *The Two Happy Brits*

Cherry Sewell

I spent over 20 years in various corporate jobs, earning great money, but having no freedom and not enough time to do the things I wanted to do. I love traveling and hated being tied down to 4 weeks leave a year, and being told when I could and when I couldn't take it. I tried other opportunities with varying success, but I still had to work long hours trying to generate any kind of substantial income. When I found this business opportunity it almost seemed too good to be true - but I thought ... what if I don't try this, what if it is everything it seems to be and I pass it up. So I jumped straight in and I haven't looked back! In a very short space of time I am now well on my way to having the lifestyle of my dreams, in fact I gave up my corporate job within three months of starting this business. I love what I do every day, this is such a simple business it is so easy be successful.

You are able to put forth effort for at least 15-25 hours per week. You are a steward of your money. You are in control of your finances.

Don - Michael Losler - Karla

◆ DO YOU HAVE A BURNING DESIRE FOR CHANGE IN YOUR LIFE?

What is a Burning Desire for Change?

You are fed up with making other people/companies millions of dollars. You are tired of spinning your wheels on a business startup that has not been successful. You have never had the chance to work for yourself because you chose to stay home and raise your children. You just haven't found the right business model that fits your lifestyle. You are absolutely unemployable because you cannot stand to work for someone else. You are successful, but you don't have time to enjoy your success because you have to work too much. You are approaching retirement and need to add to your nest egg for the relaxed, carefree retirement you dream about.

◆ ARE YOU COACHABLE AND TRAINABLE?

Are you willing and able to follow a simple system? Are you willing and able to take advice from those who have come before you who generate executive level pay every month from home?

Are you willing to be a student?

WE ARE LOOKING FOR SERIOUS, MOTIVATED INDIVIDUALS WHO TRULY WANT TO GENERATE A MASSIVE INCOME OVER THE NEXT 12 MONTHS!

We are looking for people who will (not want to, but will) generate a life changing income, if shown the right way to do it!

IF YOU ARE TRULY SERIOUS WE WILL SHOW YOU HOW TO EARN AN EXECUTIVE LEVEL INCOME RESIDUALLY BY FOLLOWING A VERY SIMPLE SYSTEM THAT DOES ALL THE EXPLAINING FOR YOU.

3% of people have a net worth of \$1 Million or more **the other 97% work to make them even richer!**

And we'll share it with you. In fact, you'll discover:

thousands of dollars a year in deductions you probably already deserve!

- ◆ **FACT: Customer pays YOU directly.** No more waiting for 7-45 days for a company to mail you a check. You do the work today, you get paid today!
- ◆ **FACT: Proven Results.** Be mentored by an alliance of successful six and seven-figure earners who will lay out an exact roadmap for your success.

This is a solid business, with a proven track record of success...

Frequently Asked Questions

◆ How do I know if I am Qualified to do this business?

ONLY the ones that want to realistically change their financial status immediately should call. For the others, there are so many other things you can do here on the Internet to make extra pocket cash on the side. We are looking for **ONLY** the person that has the desire to make money. If you do not have the desire then this **IS NOT** for you.

◆ Is this the old not mlm friends and family game?

No it is not, the traditional MLM system is such a great concept, but it is much harder and takes a lot longer to create an executive level income when you are selling products for only a few dollars each and sharing that small profit with others. We need instant gratification versus building something that could be in 1-3 years. Our system combines direct sales with a residual program based on your team building results. You are rewarded for your efforts and not rewarding others for their "non-action".

◆ Do I have to talk to people with this business?

Yes, unless you are going to do manual labor then the only way to make money is to move products and services or be responsible for the movement in some way. But we can tell you this, **you won't have to do any explaining of any product or service.**

◆ Are there any other costs in running this business?

Yes, Anyone who tells you that it doesn't take money to build a business is lying to you. This is a business

that generates a substantial income, most businesses show only a small percentage as profit and the rest is business expenses. The difference here is this business because of its immediate high cash flow will pay for all of your expenses and still have a huge net profit left over.

◆On a scale of 1 to 10, what is the difficulty level of running this business?

With **10** being the most difficult and **1** being the simplest, out of all the businesses we have ever run or owned, we would say for most everyone, it will be a **1**. The business is simple because there is a system in place that you can follow in order to achieve success. However, that does not mean that it is a free ride - everything in life that is worthwhile takes a serious effort.

◆Is training and support provided?

Absolutely. Your success will be achieved with personal mentoring by us and other entrepreneurs who have already achieved financial success.

◆How much time does this business require?

Leverage your time, choose your own hours, and take holidays whenever you wish. Work from home in your boxer-shorts, from the beach in Cancun, or while you're taking a 3-month vacation in Hawaii. **We recommend that you have a few hours a day available.**

◆How difficult is this business?

The marketing system does most of the grunt-work for you! There is NO personal explaining involved. **We have ELIMINATED most of the things that people struggle with in their own business.**

- No cold calling.
- No personal explaining.
- No "recruiting" friends and family.
- No stress! RELAX and take a nap this afternoon!

◆What is a realistic first year income?

Realistic? We don't believe in realistic. Realistic people DO NOT become millionaires. We would much rather achieve UNREALISTIC results. Your first year potential is massive given you do EXACTLY what we say and follow the system. Why would you want to get started in a business if you couldn't make a ton of money right out of the gate?

◆How do I know if this is "too good to be true?"

In our opinion "too good to be true" would be if we were to tell you that everyone you talked to would be stuffing money through their phones! This is a real, legitimate, Internet marketing system. The system works

perfectly as long as you follow it exactly You will see for yourself EXACTLY how it works. Trust us, there is work involved. What really matters the most is **YOUR level of desire.**

All of this WITHOUT:

Franchise fees of \$100,000 to \$500,000 that don't even come with a guaranteed income. Waiting four-years until your business clears a profit. You can be making money in days; It's up to you and your efforts. Overhead, hassle, of hiring staff or an expensive office. Working 60-80 hours a week or being a slave to your business. Working 10-15 hours part-time or 20-30 hours full-time is all it takes. **No explaining.** This IS NOT a sales job! Our system does all of the grunt work for you!

But remember:

◆We only work with the most highly motivated and positive people. You need to have huge dreams and huge income goals.

◆You have to have the hunger to generate substantial income in the next 6 to 9 months.

◆You will have to earn the money. That is, there is work to do and a system to follow. The money doesn't just materialize in your bank account. This isn't the "free lunch" Internet opportunity.

◆If you're ready to embark on an adventure that will change your life then contact us immediately.
